COMMERCIAL INTELLIGENCE. Hongkong, Monday Evening.

In times like the present when both trade

and commerce are apparently in a state of regressive movement has been commenced and although slowly developing, nevertheless that it will lead to a healthy and vigorous trade. The Opium market has fluctuated considerably to day. In the morning sales were made at 36921 for New Patna S645 for Old and \$630 for Benares, but notwithstanding the favorable news brought from Shanghai by the Aden rates quotations are \$6872 for new Patna, \$640 for old and \$6272 for Benarcs. Considerable sales were made of Third sales new Patna at \$6423 but the market shows no new feature. The best chop of 715 T. Cloths are readily taken at \$2.90 but the majority of the goods sold to day are at the minimum price: Sales include 8000 pieces 7lb T. Cloths at \$2.721 to \$2.90 729 pieces 3th at \$3.55, 2000 pieces 7th Grey Shirting at \$3.10, 1000 pieces 8/4 at \$3.474 and 120 pieces Camlets at \$19. The Produce market has been exceedingly dull. The only transactions reported are 1,000 piculs Saigon Rice at \$1.79, 2,000 bags Menila White Sugar at \$7.25, 1,000 piculs Siam Rice at \$2,05 and 500 piculs Green Peasat 82.27. Advices have been received from Bankok to March 5th. The prices of Rice which was on the decline during the latter half of January was maintained during February, showing decline during the period of about 10 cents per picul. The demand however had kept pace with the supplies and during the last few days the tendency of the market was still downward. The supplies of grain continued plentiful, and the diminished number of Siamese vessels loadng, together with the less favorable news from nage had not failed to influence prices, and almove than 21 cents per picul still the opinion was held that unless a considerable impulse was in return for their shipments of produce. The quotations were, Steam and the owners of cotton plantations to claim Mill rice: \$1.424 per picul. Native Cleaned Rice. White No. 1, 32.24 per picul. White No. \$5.82 and superior \$6.46. The new crop of Brown and not fairly made its appearance and prices were quite nominal.

There is little news of importance by the Shanghai mail. The first steamer of the scason from Tientsin, the Ying-tze-fei, had arrived on the 15th of March bringing news that the Peiho opened this year on the 28th February. Trade, so far as Europeans are concerned, seems worse even than last year; a larger proportion first steamers, having been to Chinamen. Quotations are given as nominal. At Newchwang. the Opium market had been dull, and only few chests bought by small native hongs pefore the nort closed, (anticipating a rise in price similar to that of last winter) and who were unable to hold over the New Year, have changed hands at Tls. 650. A few days before the 28th there was little demand, and about 30 were sold at Tls. 675 per pecul, which was the quotation for good Malwa. The roads were good produce was arriving pretty freely—yet rates kept up Peas and Bean Cake had varied 2.90 to Tis. 3.20 per 10 pieces, since the part closed. | The Melorm Universe. The first day of the Session brings us a state | F |

| the rotation of the earth's axis put an end to. We are willing to admit that the intellect and | tf 280 |
| trate of the country is thoroughly sick of Re- form, and, if it has any choice in the matter, would rather see Parliament a little un-reform- | |
| of us, we are ready to give them a most candid consideration. But it is because the question | FAMII view of |
| is not going by argument—not, at least, by that argument which deals with opinions, authorities, sentiments, and ideas—that we can afford to make these admissions. The real state of the | Lofty (|
| onse is that we are on the eve of a battle, not of a controversy. There was a great deal to be said and written on the great question of Ger- | Storero On t |
| man national unity a twelvemonth ago-about the inilitary genius of this Power, the popula- tion of that, the loyalty of one people, the pa- | Dressin The C |
| triotism of another, the position of a third, the interests and the rights involved in the question. But on the 15th of June the ques- | Wate For f |

| with no longer interruntion than that for which the American Civil War and Lord Palmerstor were answerable, but always occupying the very | Mesara |

| great question which of the existing parties is to have power, and the still greater question of the politics and the influences to prevail for the next ten or twenty years. This may be call | |
| led a more trifle compared, with the eventual destinies of this great Empire; but men generally care more for the present than for the very | 1 tf 20 |
| distant future, and they fight to more purpos in the battle which a day may decide than in that which allows of indefinite postponements | |
| and which will certainly undergo many fresh phases. What, then, has the party most deeply pledged to Reform to rely on, apart from it | tf 2: |
